Famous Actor Talks in Film

English Actor Ideally
Cast in All-Talking
"Interference"

The fact that he was born within sight of the Tower of London and was educated at Dulwich College makes Clive Brooks feel right at home as Sir John Marley in Paramount's all talking picture, "Interference", coming to the Capitol theatre next week end.

Brook had wide experience on the stage in England and prior to entering theatricals was a London newspaperman and an author of short stories. He taught elocution at one time. His role in "Interference" is that of a distinguished British physician.

Evelyn Brent, William Powell and Doris Kenyon are also featured in this 100 per cent talking picture, which was directed at Paramount's west-coast studios by Roy J. Pomeroy. The production was adapted from the stage play by Roland Portman and Harold Dearden and the screen story and dialogue were prepared by Earnest Pascal. The audible picture is based upon a Lother Mendes production.

CHESTER WHITE HOGS PROVED POOR INVESTMENT.

Of interest in connection with the selling campaign carried on in a district in the province last summer by the Central United States Swine Co., an American organization promoting the sale of Chester White hogs is an article recently reprinted in the Chicago Drovers' Journal. It will be recalled that the Alberta Department of Agriculture issued a warning to farmers in the province at that time as the position of the company and the possibility of difficulty in enforcing the terms of the contract which they were asked to sign.

The present position of the company is indicated in the following dispatch referred to above:

"Spokane, Wash., March 10.—The status of the broad sow market in the United States will be scanned by a committee of attorneys selected by 100 creditors of the Central U.S. Swine company who met at the Spokane hotel to determine how the affairs of the concern can be worked out to the advantage of creditors. Discussion among creditors from Washington, Oregon, Montana, Idaho and British Columbia showed that the concern which recently, it is said, had trouble in operating in the Dakotas had an unusual method it proposed as a means of populating the country with fine hogs.

The discussions were that the company would sell a man a blooded sow for \$95 and take her sow pigs at 15¢ lbs. at \$35 each. It was disclosed that many persons made money who enrolled early. Attorneys declared that as the business expanded and the company accepted notes, their assets became "frozen" and that they did not have enough money to carry out their contracts. Whether the sow market has been saturated was not brought out.

Attorneys were told that there is nearly \$100,000 in notes, which may give the creditors something. When the creditors were unable to get any authentic information, they appointed the committee of attorneys to determine if a receiver should be asked."

U. F. W. A. MONTHLY MEETING

The regular monthly meeting of the U. F. W. A. will be held Thursday, May 2, at the home of Mrs. J. W. Evans. The main talk of the evening will be given by Mrs. Emma Nilsson on the Canadian Council of Agriculture. In addition to this talk a good supply program has been arranged, refreshments will be served and a cordial invitation is extended to all to be present.

On Friday, May 3, this same program will be taken to Magrath by special request of the Magrath U. F. W. A., who will reciprocate by bringing a full program to Raymond for the June meeting of the local U. F. W. A.

Local Happenings

Gordon Brewerton of Cardston was here on Sunday.

Mr. and Mrs. Rog. Cooper visited with Mr. and Mrs. E. S. Gourley on Sunday evening.

Ye Editor was in Cardston over the week-end, returning on Monday with a load of furniture via Macleod.

Mrs. R. Davidson of Hanna, returned home Tuesday, after visiting with friends and relatives here.

A. Dahl returned home Thursday evening, after attending Conference in Salt Lake City.

T. K. Roberts is just completing a new modern bungalow for Percy Meldrum on his farm south-west of town.

Dr. A. C. Greenaway, of Killam, Alberta, was a visitor in Raymond this week, looking after his property interests here.

Miss Iola Harding, who has been employed at the Club Cafe all winter, left on Thursday for her home in Taber.

The streets have been a little bit muddy since the snow storm Monday night. A few holes have been made and some cars went in as far as the fenders and body would permit.

The snow fall on Saturday was much heavier between Magrath and Spring Coulee than here, and it was followed on Sunday by scattered showers of rain all over the southern end of the province.

Mrs. T. J. O'Brien and Mrs. T. O. King arrived home Friday evening from Utah, after attending the April Conference of the L. D. S. Church, and visiting with friends and relatives in Utah.

Tom Forsythe suffered a broken arm on Monday when he fell from his hay loft on the farm south of town. Dr. Leech cared for him, and he was then taken to Lethbridge to have an X-ray taken of the break.

A new supply of playground equipment consisting of games, trapezes, etc., has been added to the Public School Grounds, and school days for youngsters will now hold something more inviting than "reading, writing, and arithmetic."

Excellent progress is being made on the new Second Ward Chapel. The forms are all in and the cement is being run this week. Bishop J. H. Valkor says that when it is completed it will be the best Church building in Southern Alberta with the exception of the Temple at Cardston.

Mr. and Mrs. I. B. Roberts, Mrs. O. V. Snow and Mrs. A. W. Kirkham, motored to Magrath on Tuesday to attend the funeral of Mrs. Sarah Poulsen, who died in Lethbridge on Saturday, last week. Mrs. Poulsen had been President of the Second Ward Relief Society in Magrath for a long time, and, while she had never lived in Raymond, was well known by Raymond people, who deeply mourn her passing.

The funeral services over the remains of William H. Spackman were held at Stirling Wednesday afternoon at 2 o'clock. The church was filled to capacity by those anxious to pay their last respects to deceased friends from Lethbridge, Raymond, Wrentham and Taber were in attendance. All speakers at the services referred to the splendid character of deceased and his family, also of his success here in Canada as a pioneer and community builder. P. F. Christensen, life-long friend of Mr. Spackman, spoke of their association and of the fine characteristics of deceased. H. Ostlund, K. C., of Lethbridge in his address made some pointed observations along doctrinal lines and spoke in highest terms of the deceased pioneer. Pres. Geo. W. Green, of Lethbridge, J. W. Sykes and Bishop A. E. Fawkes, also spoke briefly.

Storm Is Beneficial

The storm which swept over the district Monday afternoon and evening, brought little over one and one-tenth inches of moisture in the three or four inches of heavy snow which covered the ground.

Best seeding had been nicely started, and according to Factory officials about 1,500 acres had been seeded throughout the entire district, with about 700 acres in Raymond and immediate vicinity. The storm was indeed a beneficial one, and the seeds that are seeded will germinate very rapidly, and the seed bed will be greatly improved for the ones still to be planted. Mr. Taylor, Field Super-

intendent of the Co., states that the soil conditions are excellent, and prospects have not been as good since 1925.

The Company has 70 drills each capable of seeding 15 acres daily, so that when they start work again about the first of the week, if 1,000 acres are planted daily, it will not take long to seed the remainder of the 9,500 acres now contracted for.

The storm will also benefit the wheat crop materially, and wheat now seeded will grow rapidly and have a good early start toward a bumper crop.

Tax Roll Is Revised

The Town Council have spent two nights recently revising the tax roll. This has needed attention for some time, and the Council decided that the opportune time had arrived for this work to be done. Some property was assessed too high, other parcels too low, and it required a great amount of thought and work to arrive at what would be an equitable levy. This work is now practically completed and the tax roll being prepared for the issuing of the tax notices which will be done in the near future.

At the Council Meeting last Wednesday night, W. A. Heninger and Riley Weaver appeared before the

Council on behalf of the Boy Scouts with a request that the Council cooperate with the Boy Scouts in draining and fencing the Swimming Pool. The Council decided the idea was a good one and voted to cooperate with the boys carrying out their plans in this respect.

NOTICE

Will those who hauled gravel on the gravel drive last fall, please be good enough to return the boxes to C. W. Lamb.

By Order of,
TOWN COUNCIL.

Follows Her Nose.

A bow rudder is a unique feature in the equipment of the Princess Norah, latest addition to the fleet of the British Columbia Coastal Steamships of the Canadian Pacific Railway. This facilitates the control of the vessel in the narrow channels to Pacific coastal waters and between Vancouver Island and the mainland linking the ports of Vancouver, Victoria, and Seattle.

The Princess is shown here in dry-dock, her bow rudder being plainly visible. On her initial voyage up the coast she carried a distinguished company, including Their Excellencies the Governor General and Lady Willingdon, Hon. Randolph Bruce, Lieutenant Governor of British Columbia, and his niece Miss Helen Mackenzie, and prominent residents of the Pacific coast.

High School Column

RUSTY RHYMES from R.H.S.

Oh to be at High School
Now that April's here
For whoever goes to High School
Sees some morning unaware
That the lower halls and the black-boards too
Are covered with signs that make him blue,
While the warm sun shines on the bare tree bough
At High School now.

And after April, when May follows,
And then the exams with all their sorrows!
Hark, ere the morning dews have left the ground,
I hear the now impatient school-bell sound,
Calling for extra hours with which to pay
For careless days of long forgotten play.

But we expect to have time to write a weekly bulletin so that the town can watch our progress. Look for our trade-mark and column next week.

PRAIRIE FIRES CAUSE SERIOUS LOSS.

Several serious prairie fires in the southern part of the province have resulted in considerable destruction of farm property as well as grass on the ranges. It is pointed out by Benj. Lawton, Provincial Game and Fire Commissioner, that those who find it necessary to set fires should take every precaution to prevent it from escaping, and anyone driving through the country should refrain from throwing lighted matches and live cigar or cigarette stubs away before they are extinguished.

The burning of stubble on grain fields in the past has resulted in considerable damage from fires which have been allowed to escape. It is considered that the stubble and straw left on grain fields where combine harvesters have been used may prove to be even a more serious menace where this is burned preparatory to plowing. It would be well for all who find it necessary to burn stubble of this kind to take special precautions even in addition to those provided for by The Prairie Fires Act.

Where burning is to be done at any season of the year for the purpose of destroying stubble, straw or brush or where it is considered necessary to utilize fire for the clearing of land a fire guard is required, and the fire in every instance must be watched by three adult persons, equipped with suitable appliances for the extinguishing of fires, and the fire must be watched and guarded until it has been extinguished. A fire guard must be provided before kindling any such fire and must be ten feet wide if burning is to be done before May 7th and twenty feet wide if it is to be done after that date.

WHY TUNNEY SAID NO

Gene Tunney, the champion boxer, has refused 10,000 dollars.

Some tobacco manufacturers wanted him to sign a statement that "This cigarette must be a good cigarette because all my friends use it."

But Tunney says an athlete cannot keep fit unless he gives up tobacco and alcohol, and he believes every body should keep fit, whether he is an athlete or not. To help to advertise tobacco, which he believes to be bad for growing boys, seems as wrong to Gene Tunney as allowing dirt to get into a town's drinking-water.

We may not all share his views, but we must all admire his principle.

DENTISTRY

Until further notice, the office of Dr. H. Harcourt Heal will be open every day of the week except Sunday's.

During Dr. Heal's absence in Warner, on Thursdays and Fridays, Dr. Berdach will be pleased to attend to any patients requiring dental services.

V. Booher Hanged

The law took its course in the case of Vernon Booher, sentenced to hang on Wednesday for the murder of four persons. Booher was sentenced at Edmonton and the original date of execution was set for December 15 last. A reprieve was granted, however, until April 24. The crime for which Booher paid the death penalty on Wednesday was committed in July of that year. He was charged with the murder of his mother, his brother-in-law and two employees on the farm Wosyl Rozak and Gabriel Grombey. As coming dawn tinged the east with a dim glow, Vernon Booher, who lived on his father's farm near Mannville, Alberta, today died on the prison scaffold of the Fort Saskatchewan jail. Five minutes after the trap was sprung at 4:40 o'clock Booher was pronounced dead, paying the penalty for the murder of his mother, his brother and two hired men on the Alberta farm.

Without assistance from the jail physician, the sayer of four mounted the 21 scaffold steps that led to his doom.

After eating a hearty breakfast and talking with Adjutant Stewart, Salvation Army officer, Booher's spiritual adviser, Booher stated that he had made his peace with God and was ready to go. The trap was sprung at 4:40 and at 4:50 life was declared extinct by Dr. Henry, jail physician, the body cut down and the black flag hoisted over the scaffold.

WHAT IS KNOWN ABOUT WOMEN

She is an angel in truth, demon in action. A woman's the greatest of all contradictions. She's afraid of a cockroach; she'll scream at a mouse; but she'll tackle a husband as big as a house. She'll take him for better, she'll take him for worse, she'll split his head open and then be his nurse, and when he is well and can get out of bed, she'll pick up a teapot to throw at his head. She's faithful, deceitful, keen-sighted and blind. She's crafty; she's simple, she's cruel; she's kind. She'll lift a man up, she'll cast a man down; she'll make him her clown. You fancy she's this, but you find she is that for she'll play like a kitten, and bite like a cat, in the morning she will, in the evening she won't, and you are always expecting she does but she don't.

ALBERTA LAMBS TOP AMERICAN MARKET

Selling at 17 cents per pound a shipment of 820 winter fed lambs from the flock of Alberta Green, from the flock of Albert Green, figure on the market at Buffalo, New York. In view of the highly satisfactory returns amounting to over \$12,000 received for this consignment further similar shipments are anticipated to Buffalo and other Eastern American markets where the demand for Canadian lambs is reported to be exceptionally good.

B. C. HOOP CHAMPS PLAY RINGS AROUND TOILERS

New Westminster, B. C., April 20.—Adanacs swept themselves into the Canadian basketball finals here to-night when they defeated Winnipeg Toilers by a score of 22 to 8 and took the series by a count of 44 to 31. There was nothing to it but the British Columbia champions in the second game. In the first half the score read 13 to 6 and this advantage was maintained in the second period when the Adanacs played rings around the Manitoba champions.

Featuring the final game was the brilliant work of Doug Fraser, Adanacs' skipper, who held George Wilson, scoring ace of the Toilers, without giving him a chance to score. In the first half none of the Toiler forwards were allowed to score, so intact was the New Westminster defence. —Leth Herald

Good

Blue Ribbon TEA

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Canada's Opportunity and Responsibility

It has been said times without number that Canada occupies a paramount and responsible position as interpreter of Great Britain to the United States, and of the United States to Great Britain. Such views have been expressed, not so frequently by Canadians themselves as by leading men in Great Britain and the United States.

Within the past few years the opinion has been expressed by leading citizens of the Empire and of China, Japan, and other oriental lands, that Canada, because of its geographical position and its rapidly expanding trade across the Pacific, likewise occupies a strong position as interpreter of the Orient to the rest of the Empire. Canada is popular in China and Japan as compared with the United States and European countries.

In the councils of the League of Nations this Dominion also stands high, and deservedly so. It is recognized by other countries, and more particularly the smaller nations, that Canada has no selfish purpose to serve through its membership in the League; that, on the contrary, the Canadian attitude is one of disinterestedness, based wholly in a desire to render service to mankind. The Canadian position in the League has always been for peace, conciliation, recognition of the rights of others, and, especially, not merely fair treatment but open generosity and sympathy for minorities.

Because of this unselfish attitude, Canadians are welcome in all lands, and the high opinion entertained for this country is proving a real asset to the business and commercial interests of the Dominion in the opening and development of foreign markets for Canadian products.

Now, one of the most influential men in India, Sir Rabindranath Tagore, the world renowned poet, outlines to Canada a duty which rests upon this young Dominion, not only to itself, or to a group of nations, but to the world. Sir Rabindranath was a distinguished guest and speaker at the recent Conference of the National Council of Education held at Vancouver, and in his farewell message to Canada he gave expression to views which Canadians everywhere may well read, ponder over, and to which they should give heed.

"Canada," he said, "is too young to fall a victim to the malady of disillusionment and scepticism, and she must believe in the great ideals in the face of contradiction—for she has the great gift of youth; she has the direct consciousness of the stir of growth within her which should make her trust herself, which is the only sure way of trusting the world."

How true this last sentence! A man or a nation which does not trust himself or itself, but lives in an atmosphere of fear and suspicion, can never trust others.

Continuing, this great Indian savant said: "Let Canada feel the sacred dawn of her life, that the expectation of human destiny is upon her as upon other sister countries which have just entered into the cycle of their promise. Canada will have to solve for the salvation of man the most difficult of all problems, the race problem, which has become insistent with the close contact of communities that had their isolation for centuries in their geographical and cultural exclusiveness. Canada will have to reconcile the efficiency of the machine with the creative genius of man which must build its paradise of self-expression, reconcile science with religion, individual right with the social obligation that it must acknowledge. She must dream of the introduction of honesty even in politics, which is the self-interest of the nation, knowing that such interest can only have its sure foundation in international friendships. She must ever hope to be able to win the heart of the world by offering the best that she produces."

Although his actual knowledge of this country was limited, Sir Rabindranath said Canada possessed powers of character and material resources that would enable her to carve out a destiny free from "the fatigue that old civilizations suffer from in the shape of cynicism."

This is an inspiring vision of Canada's place in the world. It is one that calls for the best that every citizen, regardless of his race or creed, can contribute. And it is because the Canadian people of tomorrow will be a development of the cosmopolitan population of today that the Canada of the future will find within itself the ability, the sympathy, the international viewpoint, which will make possible such a great contribution to the future of mankind and the ultimate and lasting peace of the world, for, until the race problem is solved there can be no peace in any country, or in the world at large.

Sleepers In Buses

Line Between Buffalo and Cleveland Has Comfortable Berths

A bus with sleeping accommodations was exhibited in New York recently. It has gone into service between Buffalo and Cleveland, according to the Great Lakes Stage Line, which operates between those cities and Philadelphia and New York. The bus will accommodate eighteen persons in six double and six single berths, all with outside ventilators. An electric ventilating system changes the air every five minutes.

From Youth to Age

There are three trying periods in a woman's life: when the girl matures to womanhood, when a woman gives birth to her first child, when a woman reaches middle age. At these times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

W. N. U. 1782

There will be hot water heat in the winter and fans in the summer. Conforming with the present schedule, the sleepers will operate only between Buffalo and Cleveland.

Lend Household Treasures

Royal Family Very Generous With Things For Exhibition

An instance of the true democracy of our Royal Family is surely to be found in the way in which their household treasures are nowadays lent freely for exhibition to the public. After the Lansdowne House collection of domestic art treasures comes the Loan Exhibition of old English plate at 25 Park Lane, Sir Philip Sassoon's London home, to which the Queen, the Prince of Wales and the Duke of York have all lent household silver which members of the public would never otherwise have been privileged to see.

Policeman: How did the accident happen?

Motorist: My wife fell asleep in the back seat.

Minard's Liniment for the Grippe and Flu.

Ontario Man Inherits Title

Will Go To France To Take Possession Of Property

Count Richard du Manoir de Jauvay has lived for 25 years in one half of a frame house in the village of Westmeath, near Pembroke, Ontario. All that time he has known he was next in line to the family estates and titles, together with the fine old Norman chateau. The property which has now fallen to the Count on his succession to the family title is situated near Bayeux and it is his intention to leave Westmeath for France and his ancestral home together with the Countess and their son and heir.

The Count, who acted as house painter and general handy man in the unpretentious village of Westmeath, was known as Richard du Manoir. This is the second European title to be inherited by a Canadian within the past few weeks, the other case being that of the Earl of Egmont former rancher of Priddis, Alta.

FEELING TIRED AND DEPRESSED

Then Try the Treatment With Dr. Williams' Pink Pills

It is good to be tired after hard work or play. Rest and food will banish that kind of a tired feeling. But to be weak all the time never to feel strong and vigorous, to be breathless at the least exertion, denotes a condition of ill health that must be corrected or worse results will follow. Such a condition the doctors term anæmic, and is caused by thin blood. For relief in this condition nothing else can equal Dr. Williams' Pink Pills, which enrich and purify the blood, bringing new health and strength. Among those who have found new health through the use of these pills is Mr. G. E. Hooton, R.T. 4, Elgin, Ont., who says: "For a long time I was greatly disturbed with pains in my back and felt tired and depressed most of the time. My blood seemed to be in a bad condition, so much so, that I slept poorly and severely felt like eating. I tried a doctor, but his treatment did not help. Then one day I read an advertisement of Dr. Williams' Pink Pills, describing a case much like my own and I decided to try this remedy. I took the pills for about two months, and the result was wonderful. I gained fifteen pounds in weight and felt like a new man. I know of nothing that will build up the strength like Dr. Williams' Pink Pills, and I have since recommended them to many of my friends."

Dr. Williams' Pink Pills are sold by all dealers in medicine, or direct from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box. Write today for a copy of the free booklet, "Building Up the Blood."

We'd not only rather be right than President of Mexico, we'd rather be most anything you could mention, except maybe judge at a baby show.

Use Minard's Liniment for the Flu.

The longest and deepest canyon in the world is the Grand Canyon of the Colorado River. In some places it is more than a mile deep.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

NURSES ADVISE

Zam-Buk, because they have proved that it does what is claimed for it. Miss E. L. Dorey, graduate nurse, of 3220 Michigan Ave., Chicago, says: "I have a patient who suffered terribly with piles. Zam-Buk is the only remedy that gave her relief."

"I have used Zam-Buk myself for the same ailment, also for sores and burns, and have the greatest confidence in it."

Zam-Buk

Explore Arctic For Minerals

Sergeant Clay, Superannuated Mountie, Joins Private Party

Staff-Sergeant Sidney G. Clay, of the Royal Canadian Mounted Police, left Toronto recently en route to the Arctic Circle. He is superannuated from the force having served 22½ years, and is going back to the Arctic regions not with the Mounties but with private exploration interests. For several years he was in charge of the farthest north outpost of the R.C.M.P. On his first northern trip he started for Edmonton with dog teams and canoes as his only means of transport. This time aeroplanes and motor sledges will be used.

The object of the expedition is to explore for minerals. The country around Chesterfield Inlet, according to Clay, is the wealthiest in the world. They are carrying a motion-picture outfit with them. For the past three years Clay has been a successful fruit-grower at Grimsby.

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Ship Muskrats To North China

Eight thousand live muskrats are to be shipped from the Swan Lake Fur Farm, Quesnel, B.C., this summer. It is stated by officials of the company. Three thousand are to go to North China and smaller numbers to England, Scotland, and other countries on the continent. The Swan Company estimates that it has a total of 50,000 rats on its farm.

Ready-Made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Growth Of Tree-Planting

Eight Million Young Trees Planted Annually In The West

In connection with the distribution of trees to prairie farmers in Canada which is made annually by the Tree Planting Division of the Forest Service, Department of the Interior, it is interesting to note that each spring nearly 8,000,000 young trees are sent out; shipment of these trees require 2½ carloads of moss and nearly 10 miles of 45-inch burlap. Before many years are gone, the "treeless prairie" will be a thing of the past.

Garnet Wheat Trial Shipment

Between 4,000 and 5,000 bushels of wheat has been shipped overseas, for trial in flour-making, under joint arrangements of the Dominion Department of Agriculture and the Canadian Wheat Pool. The future of this type of wheat will largely depend upon whether this present lot meets with favor among the millers of Great Britain and Germany.

An Oil Of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Employer—"Can you show a recommendation?"

Job Applicant—"Why, er-er, I was recommended to mercy by a jury once."

Even a man of steel may lose his temper when he gets hot.

Minard's Liniment for Coughs and Colds.

Talking Postcards

Latest In England

Will Be On Sale Shortly At Three Pence Each

"Talking Postcards" will in future, make it possible to dispense with ordinary printed greeting cards at Christmas and on birthdays. The latest novelty is a very small gramophone record printed on a picture postcard. It is about three inches in diameter and looks like a thin brown filament, but is shaped and marked like an ordinary record. It can be sent by post for a penny and on arrival at its destination it will deliver its message of greeting by being played on an ordinary gramophone. Messrs. Raphael Tuck, the post card publishers, confidently expect their gramophone post cards to be the novelty of the year. They will be put on the market shortly at three-pence each and there is to be a great variety of them. At present, there are ordinary songs like "Annie Laurie" and "Auld Lang Syne," special holiday numbers and a romantic declaration of never changing love. Large records, also, are stamped on calendars, and there is scope for further development of this invention in many different ways.

At forty a man wishes he knew what he thought he knew at twenty.

Toes Made Comfortable Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S CORN EXTRACTOR. Shoes won't pinch or hurt. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for "Putnam's" the one sure relief for sore corns.

Canada's Mining Advance

From a comparatively obscure position in 1900 with a production of less than \$65,000,000, Canada is steadily advancing to the front rank of the mineral-producing countries of the world with a total production in 1928 valued at \$271,000,000.

Going Upstairs Had to Sit Down Breath So Short

Mrs. H. Brousseau, Magog, Que., writes:—"For many years I suffered with shortness of breath; then four years ago I had palpitation of the heart, and was so bad I had to sit down two or three times when going upstairs. I read about

so I got a box, and in no time I felt better, so I took three boxes more and I have never had shortness of breath since."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Employees in German mines have increased in the past few years from 100,000 to 200,000.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

Northern Ireland now has two and one-half miles of highway to every square mile of land.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

ASPIRIN
Aspirin is a Trademark Registered in Canada

Germany's Unusual Club

There are numerous "crime clubs" in Germany in which for a small initiation fee and monthly dues are provided tools and disguises for the commission of any "job" on hand. Money is advanced for railway fares and competent lawyers provided.

Hill—"Does your firm pay good salaries?"

Gill—"I'm not in a position to say."

Firestone

TRACTION

MAY SAVE YOUR LIFE

Right now—your car has to hold the road in the worst driving months of the year. You need the sharp-edged, deep-grooved, road-biting grip of the greatest safety tire ever built—Firestone Gum-Dipped Balloons! In world-record mountain climbs and endurance runs, this tread has proved its safety and toughness. One look shows you that Firestone has the most gripping edges of any tread you ever saw. It's worth many times the cost of a new set of Firestones to feel the safety of this famous tread beneath you. And they give the greatest mileage ever built into a tire.

United Farmers Decide Against Joining Council Of Agriculture

Winnipeg.—The United Farmers of Canada, Saskatchewan section, have definitely decided to reject the offer of the Canadian Council of Agriculture to join the latter body, it was announced in a statement by E. A. Darby, secretary of the council. The decision of the Saskatchewan body was contained in a resolution sent to Mr. Darby.

Endeavors have been made during the past year to re-organize the Canadian Council of Agriculture so that the United Farmers of Canada, Saskatchewan section, would be enrolled in its membership and assist in maintaining the council, financially or otherwise, Mr. Darby's statement says.

In March, 1928, the United Grain Growers, Ltd., withdrew from the council to allow the Saskatchewan section of their organization leave to join with the Farmers' Union in forming the United Farmers of Canada, Saskatchewan section, the statement continues.

The new body, when formed, refused to join the council, taking the ground that it could not do so while the council included commercial bodies in its membership and was not financially self-supporting.

In June 1928, Mr. Darby continues, a conference was held in Regina with the Saskatchewan Farmers' body and the latter were invited by the council to join with the four other provincial bodies in aiding the work of the council. No decision was reached.

At the annual meeting of the council on February 25, 1929, a resolution was passed urging the Saskatchewan organization to "come into the council in order to secure the desired nucleus of a national co-ordinating body." The resolution also accepted the offer of the United Grain Growers, Ltd., to pay for the expenses of continuing the representation of the council before the Tariff Advisory Board.

Saskatchewan's refusal to join, Mr. Darby reveals, was made in a resolution reaffirming their stand against joining while the council included commercial bodies in its membership and was not self-supporting.

Great regret, Mr. Darby states, will be felt by all the members of the council by the Saskatchewan decision to remain aloof from the council, which had rendered great aid to the farmers of the west.

Unemployed In Peking

Peking.—Almost 150,000 of Peking's million people are hunting for jobs and cannot find them, according to figures issued by the municipality. The business depression following removal of the capital to Nanking has affected all classes and occupations.

Hon. J. W. Edwards Dead

Ottawa.—Hon. J. W. Edwards, Conservative M.P. for Frontenac-Addington, died suddenly as he was being removed to the Ottawa Civic Hospital following a recurrence of a heart attack which had afflicted him earlier in the week.

Ulster Parliament

Belfast, Ireland.—Parliament was prorogued with the usual ceremony. It was officially announced that the Ulster parliament would be dissolved on May 2. Elections will be held May 22.

Alberta Receives Proposal From Corporation To Settle Peace River Area

Edmonton. Settling of 1,500 families in the Peace River District under an ambitious scheme which has been submitted to the provincial government, is proposed by the Bowen Utilities Corporation Limited. It appears that the furtherance of the scheme depends on what stand is taken by the province, as the federal authorities will not act without the approval of the Alberta government.

The scheme is said to involve an expenditure of \$10,000,000, while backing has been assured by influential financial interests in the Old Country, according to A. D. Bowen, head of the company. The settlement would be in the ten townships, beginning in township 74, range 24, east of the D. and B. C. Railway at

Snubbed By Chicago Mayor

Thompson Sent "Collect" Cable To Young Australian League

Chicago, Ill.—Mayor "Big Bill" Thompson's political enemies were making the most of the official snub the cowboy mayor has extended to 160 members of the Young Australian League who plan to visit Chicago, April 22.

The youthful British subjects enabled Mayor Thompson that they were coming. Instead of extending them a welcome, Thompson sent them a "collect" cable saying that Chicago had many interesting sights. It cost the Australians \$25 to learn that the Mayor, famous as a detractor of King George V., was not enthusiastic about their visit.

Commenting upon the slight editorially, the British American, published in Chicago, said: "We can scarcely believe Big Bill would be guilty of such stupidity."

The Australian delegates will be welcomed by the Association of Commerce, Rotary, and the English Speaking Union.

Likely To Change Schedule Of Liners

Air Service To Make a Difference Says General MacBrien

Halifax, N.S.—Major-General J. H. MacBrien, president of the Aviation League of Canada, and president of the International Airways stated here:

"It is my opinion the time is not far off when we will see big ocean liners diverted from their present courses and calling at Halifax to connect with air services. For liners going to New York, this means but an hour off their regular run, whereas they will save a day with mails for Boston and New York, while other mails will be routed west via Saint John to Montreal, Windsor and Chicago—mail for the latter city saving two days."

Rescues Children From Fire

Ex-Serviceman Heroically Saves Lives Of Four

Edmonton, Alta.—Four children were snatched from death here when Fred W. Ingold, ex-serviceman, plunged into a burning shack where they had been left alone and rescued them from the flames.

They lived with their mother, Helen Coninsky, in a tiny tar-papered shack at the intersection of 66 street and 118 Avenue.

Ingold was passing the place when he saw smoke issuing from the door and rushed to investigate.

He is nursing cuts and bruises received when he plunged his arm through two windows at the side of the house in his efforts to locate the children.

Invention Failed To Work

Ogden, Utah.—When his parachute failed to open after he had cut loose from his balloon at an altitude of 250 feet, Glenn Austin of Jackson, Mich., was killed. Austin was the inventor of a contrivance which exploded a dynamite bomb to release the parachute. The bomb exploded a few seconds after he hit the ground.

Report Is Satisfactory

Sir Henry Thornton Pleased With Record Of C.N.R.

Ottawa.—The special standing committee of commons on Canadian National Railway affairs held its first meeting recently, when General Fls-et, Liberal, Rimouski, was elected chairman. Sir Henry Thornton, president of the Canadian National Railways, stated that the report of the railway showed the calendar year, 1928, was the most satisfactory of its history, both financially and from an operating standpoint.

Out of every dollar traffic receipts earned by the C.N.R., 17.64 cents was available for interest. On United States class 1 railways only 15.21 cents was available for interest. Sir Henry thought this was very satisfactory, particularly as many lines were in new districts.

To the question whether the increased receipts of the C.N.R. were at the expense of the Canadian Pacific, or attributable to national growth, Sir Henry said the net earnings of the Canadian Pacific attained a record last year.

"Therefore, I should say," Sir Henry asserted, "if I were a C.P.R. official, that the National is an asset to the Canadian Pacific. As a C.N.R. official, I consider the Canadian Pacific is an asset to the Canadian National."

"Then why not bring the C.P.R. down into Nova Scotia," asked Colonel Cantley, Conservative, Pictou.

"Well, the C.N.R. is not yet a Christmas tree," Sir Henry replied. As to whether another large wheat crop was expected this year, Sir Henry explained it was impossible to forecast any particular year. However, there had been a steady and progressive increase in the quantity of wheat produced, extending over a decade of years.

He explained that it was generally considered that the Great Lakes had a sixty-year cycle of high waters and similar cycle of low waters which must be ascribed to the precipitation. Canada was entering on the wet cycle now and it might be prophesied that the greater rainfall would result in greater crops.

The heavy carryover of wheat would assure much business in grain carrying this year.

Colonel Geary, Conservative, Toronto, inquired if there had been any adjustments in railway rates. Sir Henry replied that rate reductions effective in 1928 had reduced the revenue of the Canadian National Railway by \$908,000 as against 1927. Colonel Geary further inquired if there had been any let-up on the maintenance standard of the system and was informed that the reverse was the case, a constantly higher standard being adopted.

The minister of railways explained that the Hudson Bay Railway was not in the accounts of the National Railways. The C.N.R. was simply acting as the agents of the government in constructing this railway.

Act Becomes Effective Soon

Edmonton.—Old age pensions in Alberta will go into operation in about a month's time, it is stated by Premier Brownlee. No date has yet been set for the proclamation of the act, but steps will at once be taken to make the necessary office arrangements for administration.

MAY HEAD GRAIN BOARD

Chief Justice J. L. Brown of Saskatchewan, who, it is stated, has been offered the chairmanship of the Canadian Grain Board, reorganization of which is reported as imminent.

To Investigate Salaries

Committee To Go Into Matter Of Salaries Of Technical Members Of Civil Service

Ottawa.—The three men selected to investigate the salaries of technical and professional members of the civil service are: E. W. Beatty, president and chairman of the Canadian Pacific Railway; Sir George Carmichael, of Quebec City, and Dr. Murray, of the University of Saskatchewan, Saskatoon. This was announced by Hon. J. A. Robb, finance minister in the House of Commons.

"It has been represented," Mr. Robb said, "that the remuneration provided in the government service is no longer attractive to persons of superior technical or professional training."

"The report made last year by the civil service commission recommends a graduated flat increase of from \$240 to \$420 per annum. This would apply to 1,936 persons, and involves \$690,000 to one class, and \$60,000 to another, or a total of \$750,000."

Radio Links Arctic and Antarctic Zones

Recent Broadcast Heard Over Distance Of 10,000 Miles

Copenhagen.—The first radio communication between the Antarctic and Arctic zones was reported in a cablegram received here by the newspaper Ekstrabladet from the Mount Evans Greenland, radio station.

Mount Evans said a recent broadcast by Commander Richard E. Eyrud's station in the Antarctic was heard excellently, although from a distance of more than 10,000 miles.

Gasoline reserve supplies have been sent from Mount Evans to Camp Lloyd in preparation for Swedish-American trans-Antarctic flights next summer, the cablegram added.

Branch Lines Endorsed

Ottawa.—The standing committee of the senate on railways, telegraphs and harbors recently recommended, without amendment, the various branch line bills of the Canadian Pacific Railway, and an act respecting the Esquimaux and Navaho Railway Company.

Immigrants

The word immigrant has lost a great deal of its old significance in this country. Once it described one who was escaping from a life of suffering and hardship to an unknown land of freedom but of uncertain opportunities and possibilities. The modern immigrant is typified in the seven girls photographed above who were recent arrivals on the Canadian Pacific "Duchess of Richmond." Their future as domestics in the city of Toronto was assured before they left their homes, and the comfortable quarters they occupied on the regal Atlantic vessel was a long cry from the accommodation they must have endured had they been but one generation earlier.

Chief Grain Inspector Doubts Whether Double Standard Would Work

Japan Asks Clearer

Wording Of Pact

Phrase In Kellogg Peace Pact Contrary To Constitution

Tokio.—Katsuji Debuchi, Japanese ambassador to Washington, has been instructed to obtain an understanding from the American government on the question of the phrase "their respective peoples" in the Kellogg peace pact.

This phrase is incompatible with the Japanese constitution, which stipulates that all sovereignty lies in the person of the emperor. The newspaper states that if America rejects the Japanese reservations then Japan will issue a statement explaining that ratification is impossible, but emphasizing that Japan fully approves of the pact's spirit.

The reservations, it is reported, suggest the deletion of the objectionable phrase, a revision, or a special explanation. Such a modification will require the consent of all the contracting powers.

Taking History Chair In Toronto University

Professor Martin Of University Of Manitoba Receives New Appointment

Winnipeg. Prof. Chester B. Martin, M.A., of the University of Manitoba, has been appointed head of the history department of the University of Toronto. He succeeds Prof. G. M. Wrong, M.A., LL.D.

Prof. Martin, who has had a distinguished career in the West, created the chair of history at the University of Manitoba 23 years ago. He is president of the historical section of the Royal Society of Canada, and is president also of the Canadian Historical Association. For many years he has been engaged in the natural resources question.

He has just returned from Ottawa where he has been employed with the Hon. A. B. Hudson, K.C., and the Hon. R. W. Craig, K.C., in presenting the Manitoba case before the Royal Commission.

Stop Search For Lost Radium

Saskatoon.—The scientific search which has been carried on for two weeks in a vain endeavor to locate \$5,000 worth of lost radium has come to a stop. In the last stages of the intense search two loop operated radio sets were used without avail. The reward of \$500 still stands and it is still hoped that someone will find the little red para-rubber tube with its precious contents.

Conditions Imposed By Germany Cause Failure Of Reparations Parley

Paris.—The second reparations committee has failed in its purpose to re-define German reparations for the damage of the Great War.

The conference, which for two weeks has been engaged in an effort to set a figure mutually acceptable to the allied nations and to the German republic seemed definitely wrecked.

A sub-committee was appointed to prepare a report to the several governments stating the "why" of the failure. This sub-committee, conceivably, may furnish a loophole through which revival of the conference could be sought but general opinion did not anticipate such a development.

Dr. Hjalmar Schacht, chief of the German delegation, made continuation of the conference hopeless when he stated definitely that payment of even one-half the total sum demanded, must be conditional on abolition of the Danzig corridor, revision of the frontier of upper Silesia and immediate return of the Saar Valley to Germany.

A sub-committee, headed by Lord Revelstoke, had met to endeavor to bring about an agreement between the Germans and the allies on the first ten or fifteen annuities.

Discussion never got beyond the first annuity. Dr. Schacht declared that Germany would never under any circumstances pay annuities greater than 1,610,000,000 marks (approx-

Ottawa.—Mixing of grain could be prevented if all straight grades were sent to public terminals and binned separately, but the practical difficulty of supervising the binning would be almost insurmountable. This was the opinion of James Fraser, chief grain inspector, whose evidence was confined before the agriculture and colonization committee of the House of Commons. Mr. Fraser is to present to the committee all the troubles of enforcement which might have to be faced if mixing were prohibited altogether.

Provisional standard grain samples set up early in the season would obviate the use of the previous year's samples, Mr. Fraser stated. If samples were collected by the wheat pools as early as possible and sent to Winnipeg by express, a provisional composite could be made. It would be preferable to using the previous year's sample until the grain standards met. Later on in the year a composite could be made which would be the final standard.

Mr. Fraser did not think there should be different standards for wheat from Alberta. The difficulty would be to set up an Alberta sample that would be of the same value as the Winnipeg standard. If the standard for Alberta was higher, for instance, the buyers might complain about the quality of the product coming through eastern ports.

Conditions between the northern and southern parts of Alberta and Saskatchewan would vary, as well as between the eastern and western sections of the prairies. There was no objection to having double standards as far as the inspection department was concerned but it was doubtful if the scheme would work.

Airmen Sue For Damages

Crew Of Southern Cross Enter Action Against Sydney Paper

Sydney, N.S.W.—Writs in a suit for \$100,000 have been issued in behalf of the crew of the aeroplane Southern Cross against the Sydney Daily Guardian in connection with the newspaper's comment on the unhappy ending of the projected flight to England.

The writs, specifically in behalf of Captain Charles E. Kingsford-Smith and Captain Charles Uhm, were for damages in connection with the newspaper's recent editorial which said "Anywhere else in the world the mishap to the Southern Cross possibly will be regarded as comedy."

The article commented on the fact that the marooned crew failed to walk from the mud flats where they were forced down to Port George Mission, 20 miles away.

One of the allied experts immediately remarked that "Dr. Schacht wants the experts to revise the treaty of Versailles, which was certainly not comprised in our terms of reference."

The chief of the German delegation was then told plainly that his attitude led finally toward breaking up the conference, with the result that reparations payments would revert to the Dawes plan under which Germany must pay 2,500,000,000 marks annually (approximately \$625,000,000) instead of 1,800,000,000 marks (approximately \$450,000,000) demanded by the allies for the first annuities.

"I understand," replied Dr. Schacht, "but it will be impossible for Germany to execute the Dawes plan and she will necessarily demand that the clause giving protection against ruinous transfers comes into play."

The allied and American experts now are unanimous in agreeing that there is no further hope of coming to terms with the Germans.

THE HOME TOWN PAPER

Does the Home Town Paper justify itself? Are you interested in the welfare and happenings of your own community? Could you spend two dollars to better advantage than by subscribing to the Recorder, and thus assist it to better advertise your interests as a resident of the community?

We have often heard it said that we get no more out of a thing than we put into it. This apparently is true, in respect to the home town paper. It usually receives such names as "the rag," "the blatter," etc. people say "there's nothing in it." "It's only a lot of hot air," and various other phrases which are not very complimentary to the efforts of the Editor, who may not be, and seldom is, all that the reading public expect him to be. Usually the people who really feel this way about their home town paper are those who never read the ads., seldom glance at the editorials, and find fault because their names are not in the local items.

Now we feel, that inasmuch as requests are coming into our office continually for copies of the paper to be mailed to distant points for strangers to read, that we should be interested in assisting to fill the paper with good live news and good advertising material, that will be attractive. Because, quite often, these requests come from people who are looking for business opportunities; from those who want to make some investments in town or district property; or who are looking for a place to locate, and, in all such cases, they will judge us by what they see in the paper, and, if it doesn't represent us correctly, then they get a wrong impression and form a wrong opinion.

Well you say, get the news yourself, that's your job. True, it is. But it would take more than one man on the job twenty-four hours a day to get the items of interest that are happening daily; and when we have to set the type for the paper, gather and change the ads., get out the job work, and various other items which enter into our routine, we have far less than twenty-four hours daily to devote to gathering news.

We would appreciate a report of the meetings of various organizations in our midst from the Chairmen or Secretaries, and, even if nothing of outstanding importance occurred, it is always interesting to know that these activities are being carried on. If you have been away, our readers would like to know where. If you have friends visiting with you, our readers like to know it. These items may seem trivial, but they are what make the home town weekly. Don't think that you are trying to advertise yourself, or that we are trying to pry into your personal affairs. If you report on these matters yourself, we will get them correctly. If we get them from other sources, we may get a name or detail wrong, and then, of course, you will have a good reason for cussing the editor, provided of course that your subscription is paid up and in good standing. We can tell you how you stand in this respect if you have forgotten. Please call in.

Our telephone number is 24, and I think it is in working order, or at least it was when I tried it last.
Help us make the Recorder what it can easily become, "the newest weekly in Southern Alberta."

TOUCHING RETURN

"When the tourist arrived home he fell on his face and kissed the pavement of his native city."

"Emotion?"

"No, banana skin."

MARINE ITEM

What did the seaman say when you asked him if you could him anything else.

He said, "bring me an island."

HEIGHT OF SOMETHING

A Scotchman recently sued a baseball company because he was hurt while watching a ball game. He fell out of a tree.

THE COP'S CLUB

Visitor: "Have you an up-to-date police force?"

Citizen: "You bet. Why, the officers have caddies to carry their clubs."

News Notes

H. D. Weaver, principal of the Jarrold school, and wife, were visitors in Raymond over the week-end.

A. W. Kirkham, of the Raymond Merc., was in Lethbridge on business Monday of this week.

The Boy Scouts sold root beer and cake and doughnuts in Bennett's store last Saturday. They received fairly good support.

Sheepmen are now busy with their flocks, watching over them night and day during the lambing season.

The snow on Monday night was one of the wettest ever known here. A great deal of it melted as it fell and cars were getting stuck during the night at different soft points in town.

Quite a number of Raymond people went to Magrath on Tuesday to be in attendance at the funeral of Mrs. Poulsen.

Mrs. D. H. Ellison, of Waterton Park, returned home on Saturday's train, after a two week's visit with friends and relatives here.

Quite a lot of snow had to be moved off the roofs of the flat buildings this week because of it being so wet and heavy.

Mrs. Jane D. Collett is home for the summer, after spending the winter in Banff, with her son Mr. E. S. Duncan, editor of the Crag and Canyon.

Mr. and Mrs. Lee Brewerton and wife, and Lowell Court, were in Cardston on Sunday. Lowell will remain in the Temple City this week to help with the showing of Cardston's first "Talkie," "Abie's Irish Rose," showing this week-end.

The Canadian Sugar Factories Ltd., shipped in 40 head of Black Galloway yearlings last week. They are surely a fine looking bunch of cattle.

The C. P. R. work train has been doing quite a lot of work on the tracks the past few weeks, such as ditching and moving the dirt from the centre and sides of the track.

VISITING DAY AT CRIPPLED CHILDREN'S HOSPITAL

Visitors are always welcome at the Junior Red Cross Hospital in Edmonton during the official visiting hours in the afternoon, that they may see for themselves what manner of miracles are being wrought on the soft baby bodies of little ones who are unfortunately handicapped from birth.

The writer had the pleasure of attending a party of country friends round the wards lately, and it was worthy of note that at every stop of the way, the sympathies and admiration of the visitors increased as they saw and heard and spoke to the children for whom they had been making special financial appeals in their home-towns.

A smiling nurse welcomed the party and in a trice everyone was robed in white—the special gowns being used as a precaution for safety and health. Turning to the little nursery wards at the entrance, the visitors saw little ones in each of the four cots. One looked quite a new baby and was soundly sleeping with the happy air of innocent infancy. Not so the ex-babies who were all on wires apparently, full of fun and ready for the little gifts of their friends. Small feet in casts of plaster, little faces in tar masks, limbs suspended from special supports, crutches under tiny shoulders, hands and fingers being gently massaged, children at study, others at play, nurses here and there and everywhere such were the pictures of hospital life seen on a visiting afternoon.

Special interest was shown by the country friends as they saw in one cot a little darkie lad with wide smiling mouth, big rolling eyes, while in the cot opposite lay a small Japanese lady of three years old gazing dreamily through almond eyes.

Children whose accent told of central Europe, true born Canadians of the fourth generation, little fair-haired Old Country youngsters, even a daughter of the Red men of the plains—all together under the banner of Red Cross, whose benediction of health and happiness falls on all, regardless of race or color. Endowed cots here and there told their own story, one small "Tiny Tim" cot expressing the sentiment of the Visitors "God Bless Everyone."

ALBERTA FARM LOAN BOARD NAMED

The personnel of the Alberta Farm Loan Board as nominated by the provincial government and accepted by the Federal Farm Loan Board at Ottawa will include J. C. Murray of Edmonton, A. H. Tovell of Calgary and George Bennet of Manville. Hon. R. G. Reid, Provincial Treasurer, in making this announcement expresses the belief that the government has secured a highly efficient board to which may safely be entrusted the administration of the new Act in this province. Mr. Murray, the chief executive officer of the board has been until recently a member of the Edmonton staff of Credit Foncier. He will give his full time to the farm loan work, his associate members being available for such time and service as may be required. Mr. Tovell is chairman of the Municipal Hall Insurance Board and Mr. Bennet is a well-known director of the Alberta Wheat Pool. Steps will be taken at an early date towards bringing the Act into operation in Alberta and a number of applications and inquiries already in hand respecting farm loans will be dealt with as soon as possible.

BEAUTIFY CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

PROOF OF DYES is in the dyeing!

Words won't dye a dress, or coat, or sweater. It takes real anilines to do that. That's why Diamond Dyes contain from three to five times more anilines than any other dye—by actual test.

It's the anilines in Diamond Dyes that do the work; that give the colors such brilliance; such depth and permanence. It's real aniline that keeps them from giving things that re-dyed look; from spotting or streaking.

Next time you have dyeing to do, try Diamond Dyes. Then compare results. See how soft, bright, new-looking the colors are. Observe how they keep their brilliance. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

Why Cement and Plaster Need Painting

It is seldom one sees a cement, concrete, stucco, plaster or brick surface painted. It seems to be the general assumption that these substances are amply able to protect themselves from weather and other destructive conditions.

But that is a mistake. It is well known that cement is a moisture absorbent, and it isn't true that the moisture does not harm it. It is almost as important to prevent rain from penetrating the surface of these rough mineral outside as it is to protect wood and iron from rain.

But just any kind of paint will not do. It must be a special cement paint having a chemical composition not affected adversely by lime or alkalis.

It is important that owners of commercial and manufacturing buildings, grain elevators, residences, garages, silos, etc., with absorbent outside surfaces, should realize the advantages of painting them—that they will last longer, look better and need fewer repairs after being so treated.

Many accidents happen from warming varnish and other mixtures that contain inflammable liquid. Almost every day it happens. "Happens" does not seem to be the best word to use, however, for it is discovered that such "accidents" (another wrong descriptive word), are usually the result of want of common horse sense.

Anybody should know that to place highly inflammable substances like turpentine and benzine by a hot or even warm stove is more than likely to cause an explosion. "She was heating a pot of varnish on the stove and it exploded." Of course it did; did she think it would simply boil over, like a pot of soup?—Painters' Magazine.

Moose Jaw Board Of Trade

The recent three days' drive for membership in the Moose Jaw Board of Trade, with an objective of 1,000 members, went over the top with 1,200 paid up members secured.

Lady in library: "Have you been reading Longfellow?"

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Had Thought For Troops

Prince Of Wales Countermanded Order For Parade Owing To Weather

On the day the Prince of Wales presided over the first Royal levee of the year at St. James's Palace, Pall Mall, London, elaborate ceremonial had been arranged. He was to drive in a silver and gilt coach from Buckingham Palace, the King's London residence, to St. James's attended by a squadron of the Horse Guards in full parade equipment, including highly polished steel cuirasses and enormous busbies.

The weather turned intensely cold, and the discomfort this parade would have occasioned—not to himself, for he would have been well sheltered in the coach, but to the troops that were to take part—at once appealed to the Prince. Half an hour before the ceremony was to begin, therefore, he quietly countermanded it, and walked from the modest bachelor quarters he occupies in York House near by. Little was said about this at the time, but a few of the 47,000,000 inhabitants of some gray little islands in the Northern Seas took note of it and approved.

Home Decorations

A little money goes a long way in furnishing a home if it is wisely spent. A plain painted wall in a light, pleasant color, or light-colored monotone or neatly patterned paper, does not cost very much, but goes a long way toward giving a room a fresh, smart appearance. Bright colored cretonnes add a note of gaiety and cheer to windows. Ugly or cumbersome pieces of furniture can be replaced by inexpensive wicker or cottage furniture. Nondescript chairs, stands and tables can be painted pleasant colors, giving accent to the furnishings of the room. Worn-out upholstery can be covered with slip covers of denim or cretonne, or reupholstered in inexpensive wool repp. New silk or parchment lamp shades and pillows of quilted silk or bright linen adorned with wool embroidery or applique add to the up-to-date appearance of the room. Well designed scatter rugs, rag mats, and the delightful new linoleums make charming and inexpensive floor coverings.

Air Service From Seattle To Alaska

Proposed Course Via British Columbia Has Been Surveyed

The International Airways will start a passenger service from Seattle to British Columbia and Alaska early this summer, operating eight teen-passenger seaplanes, P. T. McCarty, president and general manager of the company announced. The service will include stops at Vancouver, Prince Rupert, Ketchikan and Juneau. A branch line may be extended from Juneau to Sitka.

Mr. McCarty and a party of four others, completed a survey trip of the proposed course, making a round trip from Seattle to Juneau by seaplane.

Invents New Auto

British Engineer Claims Machine Capable Of Great Speed

Amburst Villiers, young British engineer, is reported to have completed the design of a motor car which he will take to Dayton in 1931, with a guaranteed speed of 300 miles an hour and a theoretical maximum speed of 400 miles.

For the first time wireless will be used for steering, but the details of this were kept secret. The engines will have 3,000 horsepower, and the car will be fitted with eight wheels. Prominent British financiers are providing the money.

Was Very Careful

A man had recommended a friend of his for a job. "Is he fond of work?" asked the manager of the works. "Fond of it?" cried the friend and exclamation, "I should say he was! I never saw a man who could take such good care of work as he does. One piece of work will last him for a week."

"My Lord," said the foreman of an Irish jury, when giving the verdict, "We find the man who stole the mare 'Not Guilty.'"

"How's everything at home?" "Oh she's all right."

THE SUFFERING SERVANT OF JEHOVAH

Golden Text: "With His stripes we are healed."—Isaiah 53:5.
Lesson: Isaiah 52:13 to 53:12.
Devotional Reading: Revelation 5:9-14.

Explanations and Comments
The Servant of Jehovah.—Who is meant by the term? In the words of the Ethiopian eunuch (Acts 8:34), "Of whom speaketh the prophet this? of himself, or of some other?" Philip, to whom the eunuch spoke, immediately took up the passage which we study today, and from it preached Christ.

Incidental allusions to the Servant of Jehovah are scattered throughout the second part of the Book of Isaiah, but the main passages are these: 41:8-20; 42:1-7, 18-25; 43:5-10; 49:1-9; 50:4-10; 52:13 to 53:12. What was the conception in the mind of the prophet? Was the "Servant" a personification, or a person? If a personification, was he the Israelitish nation as a whole, or the righteous nucleus? The exiles in Babylon, or that part who remained loyal to Jehovah throughout all the trials of the exile and thus kept alive the true religion? If a person, was he ideal, or real? A prophet, or Hezekiah, or Jehoiachin? Or was he one still to come, the promised Messiah? Each of these interpretations are ably defended by scholars.

The very name "servant" sets up a standard of life for individuals and nations. Those who would be great must become the servants of all. Jesus Christ is the only perfect illustration of altruism. Selfishness is the curse of the world. Christ brought help because he was the perfect "Servant" of Jehovah, consecrated to unselfish service. And servanthood and service must characterize every life that ministers to the health and strength of humanity."—John T. McFarland.

The Later Exaltation of the Servant of Jehovah, 52:13-15.—In these last three verses of the fifty-second chapter of Isaiah, God is represented as the Speaker. (In 53:11, 12, He again speaks.) Behold, he exclaims, my "Servant," he who executes my will, shall deal so wisely as finally to be exalted. But just as many were astonished, because they could not understand His sufferings, His visage and form disfigured by disease; so when he is exalted he shall startle many nations, kings shall be silent with surprise when he is really known and understood. ("The word 'sprinkle' is difficult and obscure and perhaps not original. The Greek version reads 'many nations will marvel at him.'")

The Servant of Jehovah a Man Of Sorrows, verses 1-3.—The prophet is now the speaker. "Whenever a 'we' is suddenly introduced into prophecy, it is always Isaiah that speaks, since the prophet takes the nation along with himself."—Delitzsch. Who hath believed our message, and to whom hath the arm of Jehovah been revealed? He refers seemingly to the revelation which he has made in the past, the substance of 42:1-4; 49:1-6; 50:4-9. "The tenses in verses 1-3 are past (prophetic perfect), the future being viewed as already accomplished. The implied answer to the question is 'No one.'—Dummelow. The "arm of Jehovah" is a figure of speech for the work of Jehovah; the sending of the "Servant" is his work. He was despised, and rejected of men; a man of sorrows, and acquainted with grief. "What an illiad of woes is condensed into these words!" And as one from whom men hide their faces he was despised; and we esteemed him not. Men turned their faces away from him with loathing. Many see in these words a suggestion of leprosy, and refer to Job, 16:6.

The Cost Of Corrosion

In a paper read before the Institution of Civil Engineers, by Sir Robert Hasfield, on "The Corrosion of Ferrous Metals," the startling statement was made that, according to his estimates, 29,000,000 tons of steel were lost by rusting in 1920. At 20 pounds a ton this would represent for the year the huge bill of 580,000,000 pounds, to which might be added another 120,000,000 pounds spent on operations rendered necessary by the corrosion. These figures refer to the whole world, but, as the "Electrical Review" pointed out, the major part, say 450,000,000 pounds, would probably have to be debited to the British Empire, a sum equal to nearly half our total war indebtedness to the United States.

The girl with a broken heart always manages to save the pieces.

Pictures and Mirrors Give Finishing Touch

Pictures serve an admirable purpose in the decoration and furnishing of the small home.

By the very nature of their location on the wall they occupy none of the floor space that is so valuable in the small dwelling. If a little room has been rather crowded with furniture, pictures on the wall carry the eye upward and bring the attention from the lower part of the room to the upper, where there is a greater appearance of space.

Then, too, the subjects of the pictures may be chosen with a view to increasing the apparent size of the room. Pictures with a rather deep perspective give the eye a feeling of looking into the scene, down a corridor, into a valley, along a river, or otherwise creating an appearance of distance.

To do this removes much of the cramped feeling that invades a small room overcrowded with furniture.

The choice of color in pictures also will have much to do with the decorative scheme of the room, and the same effect of spaciousness can be created with the judicious use of mirrors.

The Part Paint Plays

"Where poverty lives, there filth abounds." Someone wrote or said that a long time ago and it is quite true today. The solidity and prosperity of a town, or its poverty and shiftlessness, are indicated by its physical appearance.

"Paint and Pride Are Partners," is one of the slogans of the "Clean-up and Paint-Up Campaign," and it is a good one. "The greatest incentive to cleanliness is paintfulness," is another true one.

Any community cleaning that lasts requires the paint brush even more than the scrub brush. Walls and other surfaces which are properly painted, enameled or varnished, are washable. They are easier to keep clean. Good paint and varnish reduce the labor of keeping clean, promote health, inspire pride of ownership, multiply the joys of living and increase property values. There is no better time to paint up than when you are cleaning up, and there's little hope of keeping your premises cleaned up unless they're painted up.

The Dandelion Digger

The dandelion is a pretty little flower for a few hours. Then the blossom becomes an unsightly tuft of seeds which are lifted by the slightest breeze and blown over the yard or throughout the neighborhood. Then the dandelion soon becomes an unsightly weed which disfigures an otherwise beautiful lawn.

Dandelions attract mosquitoes and other undesirable insects. Get rid of the dandelion by enlisting the services of the children! Organize them into an army of dandelion diggers.

Any self-respecting home owner will pay the little tots ten to twenty-five cents per hundred for dandelion and other weeds that mar his lawn. You can appeal to the pride of the little folks by making them soldiers in this special army of fighters, and you will please them by a small cash reward for their work.

Grocer—"Then you don't want no cranberries?"

Customer—"No, I've changed my mind. I see your cat is asleep on these cranberries."

Grocer—"Oh, that'll be alright. I don't mind wakin' the cat up."

A biologist has declared that the ape is not man's ancestor, and that ought to be comforting to the ape.

CHAPTER XVIII.—Continued.

"Come in," she called. Donald followed Walnwright, his heart-beats peculiarly accelerated. For an instant he could not distinguish objects in the dim interior. Then his eyes rested on Connie, sitting demurely in the corner. She wore a gingham dress of blue, with white collar and cuffs. A dark belt was fastened snugly at her slender waist. Tiny high-heeled shoes peeped from below the hem of her skirt. Her beautiful hair hung down her back in a huge braid that fastened at the nape of her slim, round neck with a narrow black bow. She rose and crossed the room to meet him, her high heels making her like the little body appear much taller. There was something fragile about her beauty, some of the colour gone from her cheeks, and just a hint of shadows under her eyes.

Donald held out his hand. "Good evening, I'm glad to see that you are better," he said awkwardly.

A slender, warm hand crept timidly into his, and his fingers closed on it gently as on a flower. He stared down at her, thrilled by her loveliness. She raised her eyes with their bewilderingly long lashes slowly to his face. With a sudden leaping of his heart, Donald realized that he was in love.

They talked desultorily while Connie sat timidly on the edge of the uncomfortable chair. She could not feel at ease in the high, narrow shoes and the enveloping skirts. And as she essayed to cross the rough floor with an assumed air of ease, her ankle turned and she would have fallen had not Donald caught her in his arms.

As he raised her to her feet she blushed furiously, and he fancied he could feel the warm beating of her heart. With an embarrassed apology, she slipped from him, crossed to the table and lighted a candle. And presently he took his leave, Walnwright walking with him down the darkening trail.

Walnwright was in one of his brooding moods. For a few minutes he was silent. As they neared the bluff he spoke.

"After witnessing my daughter's distress the morning of the race I am afraid that you feel harshly toward me for allowing her to be placed in such a humiliating position. You have been exceedingly kind to us; therefore, I feel that I should relate the circumstances which have placed me in my present position. As I told you that day, I have allowed my pride to withhold from my daughter her inherited rights. I will be as brief as possible.

"My father, who took great pride in the family name, planned a political career for me even from the day of my birth. By natural taste and temperament I was quite unfitted for public life. I must have been a great trial to him, as from early boyhood I evinced a great love for the study of botany and ornithology. He would go into a red rage when he found me in the garden studying flowers under a microscope or stalking birds in the shrubbery.

"At college I was not a success, either socially or in my class. Always of a retiring nature, I did not enter social life or college sports, and the course of study set for me by my father bored me extremely.

"During my third year at college I met Connie's mother. Until that time no woman had entered my life, although my father had hinted his plans for my marriage as soon as I had finished my course.

"To me any flower shop, however small acted as a magnet. One day I stood gazing in the window of a tiny florist's shop on the Strand. A girl was kneeling among the flowers, and as she lifted her head our eyes met. She was like a golden lily. Her hair was like Connie's hair, and the blue of her eyes was the blue of the pansies she held in her hand. And her name was Constance."

He paused for an instant. "Her father, who had been a rector in a small parish in the south of England, died just previous to our meeting, leaving his motherless child without kith or kin. Lest I weary you I may say briefly that we were married. My father would not even grant me an interview, but wrote to me saying that marrying as I had done had barred me forever from his door. I did not care. I was happy—completely, supremely happy. I sold a small estate bequeathed to me by my mother, and we set out for British Columbia.

"Ah!" he breathed softly, "that voyage! We could not afford it, but we travelled first-class—it was our honeymoon and we were young. We had never been to sea before, and the novelty of it all wove a spell about us. As we walked the deck we talked joyously of our wonderful future in the mysterious Great West.

"Our first year in Vancouver was one of blessed content. There is no love that could be greater than ours. Clerical work was scarce, so I took any job that offered. I would come through all kinds of weather she home black with coal-dust or white with lime, and my wife would cry out merrily as she threw herself into my arms. We turned our hardships into jests."

A smile of infinite tenderness played about his eyes as memory recalled the golden days with the woman he loved. "The next winter I was taken grievously ill. I lay helplessly on my back while my tender wife tramped from house to house teaching painting and music. Day after day made her daily rounds to keep us in the bare necessities of life, and pay the doctor's bills."

Walnwright's voice sank and almost failed him for a moment. Recovering himself, he resumed his story.

"She would come home at night, tired and worn, to fall asleep in a chair by my bedside, while I raved in a fever. She went without food to buy dainties for me. She never lost her cheery smile—but it killed her. She died giving birth to—to—Constance."

Tears rose to his eyes, and for a moment he covered them with his hand. With a great effort he continued.

"I became embittered, changed completely out of any semblance to my former self. I cursed my father. I cursed the world. I would have welcomed death, but as I looked down at the tiny mite by my dead wife's side, I knew that I must fight to live.

"A short time after, I received from my father a letter in which he asked my forgiveness. I was unfitted to make my own way in the world, yet my father had turned me brutally away. My wife had died

BOTHERED WITH ECZEMA 2 YEARS

Itched and Burned. Formed Eruptions. Healed by Cuticura.

"I was troubled with eczema on my hands, limbs and feet. It began with an itching and burning and later formed sore eruptions. The irritation was so bad that I could hardly stand it. It bothered me for two years.

"I tried different remedies but they all failed to help me. I began using Cuticura Soap and Ointment and got relief. I continued the treatment and now I am completely healed."

(Signed) Mrs. Alvah McKinnon, Tatamagouche, N. S., Sept. 27, 1928. Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing.

from overwork and lack of food. I wrote to him in a black rage a letter that must have scorched his soul.

"For four years I eked out a miserable existence in the City. My health broke down again, and my doctor warned me that I must get to a higher altitude. I learned of this place, turned everything into cash, and came here, bringing Connie with me.

"My sole income has been derived from writing articles on Nature for the newspapers and magazines. Several times my father has advertised in the newspapers, asking me to return. I read of his death two weeks ago. For Constance's sake, I am going to start for England tomorrow."

Walnwright's head drooped listlessly as he concluded his story. All energy, all strength of bearing, seemed to have gone from him. The bitter remembrances he had voiced had brought a look of mental anguish to his face. He stood staring mutely before him.

(To Be Continued.)

Recipes For This Week

(By Betty Barclay)

SLICED LEMON PIE

1½ lemons.
2 eggs.
1½ cups sugar.
¼ cup water.
1 tablespoon melted butter.
½ teaspoonful salt.

Grate the rind of one lemon. Peel white part from lemons and slice the pulp very thin, discarding seeds. Beat eggs until light, add sugar gradually, then grated rind, water, butter, salt and lemon slices. Bake between two crusts. Put into hot oven (450 degrees). After 10 minutes reduce heat to moderate (350 degrees) and continue baking 30 minutes longer.

SALMON TURNOVERS

Chop fine one can salmon and one hard-boiled egg. Stir half a teaspoon moistened cornstarch in half a cup milk over slow fire. When thickened beat in salmon, one tablespoon butter and season. Cool. Make a rich pie crust, and cut the turnovers with a saucer upside down. Wet edges with cold water. Put a good tablespoon of salmon mixture on half of crust, fold over other half and press well together. Cut small slits on top, brush with milk and bake in quick oven.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Flames From the Sun

Sometimes Reach Height Of Half a Million Miles

Flames leap outwards from the surface of the sun at the rate of 20,000 miles a minute and sometimes reach a height of half a million miles, says Dr. Ferdinand Ellerman, of Mount Wilson Observatory, California. When these "prominences" were first noted, during a complete eclipse, early astronomers were divided as to whether they belonged to the sun or the moon. In 1868, Sir J. N. Lockyer, the astronomer, found he could observe them by a spectroscopic without waiting for an eclipse, and proved that they issued from the sun. It was while studying these tongues of flame that he became convinced of the existence of helium.

"May I call on you?"
"I'm sorry, but I'm married."
"Well, I'm married and just as sorry."

Selling Furniture

From Nelson's Ship

Three Pieces From Cabin To Be Disposed Of

Three pieces of furniture which Nelson used in his cabin in the Victory, and which today occupy their former position in the old battleship at Portsmouth, are to be sold by their owner.

The furniture consists of a mahogany dining table (which has folding leaves), sideboard, and wine cooler.

According to the description affixed in the cabin, the furniture was made by W. Wilkinson, of Ludgate Hill, in 1800.

When Nelson's body was being brought to England, the Victory put back into Rosia Bay, Gibraltar, and the furniture was put ashore, where it is believed to have been secretly sold by one of Nelson's servants.

In 1862 it was bought by the grandfather of the present owner, who lent it to the Victory in October last.

BABY'S OWN TABLETS WIN GREAT PRAISE

Many Mothers Always Keep Them In the House

Thousands of mothers state that they knew of no other medicine for little ones to equal Baby's Own Tablets—that they always keep the Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets Mrs. Donat Ploudre, Tingwick, Que., writes:—"I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Real Thrillers

The teacher had been talking about books.

"And what are your favorite books, Jackie?" she asked a young hopeful near the bottom of the class. "Cookery books, Miss," was the astonishing reply.

"Cookery books" echoed the teacher. "Why?"

"Because they are so full of string incidents!"

Little Helps For This Week

"And the Lord shall guide thee continually."—Isaiah lviii, 11.

Up, up! the day is breaking.

Say to thy eyes good-night;

Thy troubles from thee shaking;

Like dreams in day's fresh light.

He who for winds and clouds

Maketh a pathway free,

Through wastes or hostile crowds

Can make a way for thee.

—Paul Gerhardt.

Arduous is the conflict, but abundant the strength; hard the toll, but glorious the reward. Oh, forsake not me Thy child when walking through the great tumultuous crowds who know not Thy name! Wide is the sea through which I have to steer my course, and high its swelling waves; but grace is the breeze that fills the sails, my compass is faith, and my pilot is Christ.—Tholuck.

The Customs Officer eyed the hot-tle suspiciously.

"It's only ammonia," stammered the passenger from the Continent.

"Oh, is it?" said the Customs Officer, taking a long sniff.

It was.

Employer — "Can you show a recommendation?"

Job Applicant—"Why, er-er, I was recommended to mercy by a jury once!"

A Scotchman may be tight but he'd give his right arm to a friend provided he had nothing in his hand at the time.

Record Of Juvenile Wonder

Boy Born In 1721 Possessed Most Unnatural Ability

Old records cite the case of one juvenile wonder named Christian Heinleker, born in 1721, at Dubeck, who at the age of ten months could speak and repeat every word said to him. At twelve months he knew the Pentateuch. In his second year he learned most of the Bible—Old and New Testaments. In his third year he talked history and geography. In his fourth year he mastered French. He was taken to Copenhagen before the King and proclaimed a wonder. He died June 7, 1725, from a weak constitution.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

The average velocity of wind in Philadelphia is 10 miles per hour.

An odorless onion is cultivated by the Chinese.

How far would you go to be sure of a better Oil-?

Knowing that a better oil means smoother performance, longer life, greater economy and bigger trade-in-value for your car, you'd probably go a long way to be sure of a better oil.

That's what Imperial Oil Limited did—went all the way to tropical South America for the crude out of which to refine Marvelube.

There's lots of crude oil available right at Canada's front door. If Canada's largest and most modern refineries had been able to evolve as good an oil as Marvelube from locally available crude they would have been glad to do so. Peruvian crude made a purer, carbon-free, fuller-bodied oil—an oil that meant better lubrication—so Peruvian crude was decided upon.

The decision set a new standard in motor oils. Aircraft operators, the most particular buyers of oil, are enthusiastic about Marvelube because it has given them a longer period of operation between engine overhauls, and a greater margin of safety. You can enjoy the same benefits in your car, and there is a grade of Marvelube that is refined to meet the exact requirements of your car. Consult the Marvelube chart at good service stations and dealers everywhere.

Guard Against FLU — Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerviline. The antiseptic properties of Nerviline quickly destroy the germs in the throat. Of course if the chest is sore Nerviline should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerviline will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerviline and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

ALBERTA VARSITY MAN RECEIVED KAISER'S SWORD

T. Keyser, B. A. Formerly of Raymond, Claims Unique Distinction

To have received the sword of Kaiser Wilhelm is a distinction claimed by T. Keyser, B. A. formerly of Raymond, and now a student in agriculture at the University of Alberta. Keyser's home in Holland was at the Hague, and during the war he was a captain in the Dutch cycle patrol which guarded his country's frontier, and as such received the fleeing emperor's sword in token of surrender.

The young Dutch immigrant and varsity man is not unknown in Lethbridge nor to readers of the Herald, for a number of articles from his pen have appeared in the columns of this paper. For a time he was attached to the staff of the School of Agriculture at Raymond.—Leth. Herald.

ATHENIANS AT THE CAPITOL

The Athenian Club was entertained at the Capitol on Saturday with "Able's Irish Rose." Afterwards, the guests enjoyed a dainty luncheon at the home of Mrs. Honnie Nalder. The tables were prettily decorated in mauve and pink spring flowers. The Club presented the hostesses, Mrs. Nalder and Mrs. Edgar Nilsson with beautiful potted plants. The following ladies enjoyed the affair: Mesdames E. Whitbeck, M. E. Buckholdt, Wm. Nalder, H. Christensen, C. W. Lamb, A. W. Kirkham, Wm. Meekes, S. B. Card, L. L. Palmer, Hamp Whitbeck, and the hostesses, Mrs. Nalder and Mrs. Nilsson.

MANY NEW BUILDINGS AT MENTAL HOSPITALS

Increased facilities for taking care of the mentally sick people are provided for in the Alberta Government's buildings program for the present season. It is announced by Hon. George Hoadley, Minister of Health. The Ponoka, Oliver and Red Deer institution will all share in the enlargement program under which six additional buildings are to be erected. A one-story pavilion fire-proof building will be constructed for infirmary cases at the Red Deer training school for mental defectives at a cost of \$30,000. New buildings planned at the Ponoka Hospital include a separate building for the care of advanced mental cases, an extension of the nurses' home, a reception ward for men patients and a new dining room for women patients. At the Oliver hospital an additional building will provide accommodation for some 30 patients. Work will be started shortly on the construction of these buildings for which provision was made in estimates passed at the recent session of the legislature.

TREMENDOUS INCREASE IN HOMESTEAD ENTRIES.

Unprecedented demand for homestead lands in northern Alberta is indicated by the records at the Dominion Lands Agencies at Peace River and Grande Prairie for the fiscal year ending March 31, 1929. At the Peace River office a total of the above 3,024 entries for 2,869 homesteads and 155 soldier grants were made during the above period as compared with 854 homesteader entries and 48 soldier grant entries or a total of 902 for the preceding year. At the Grande Prairie agency 2,306 entries were made during the fiscal year of 1928 as against 958 in 1927.

ALBERTA MACARONI SHIPPED TO CHINA

The Catelli Macaroni Company of Lethbridge has received an order from an Italian dealer in Shanghai, China, for the shipment of a carload of this Alberta product to that country. This consignment, the first of its kind to go from this province to the Orient, will be loaded at Vancouver on May 9th.

OLD AGE PENSIONS ACT IN OPERATION SOON

The Old Age Pension Act will probably come into operation in Alberta in about a month according to a statement made on Thursday by Premier Brownlee. The Act it has been decided by the Executive Council will be placed under the jurisdiction of the Workmen's Compensation Board, and arrangements are being made for this board to administer the provisions of the new Act. Under the proposed plan it is necessary for each province sharing in the benefits of the Dominion legislation to submit its supplementary and contributory legislation to Labour for final ratification and to draw up a formal agreement of operation. As soon as this step has been taken it is expected the Alberta Act will come into effect. The payment of pensions will not become retroactive but will date from the time the Act is proclaimed.

Jack is Twenty-One
Today

Jack is twenty-one today. But he has more than a man's years to his credit. He has one thousand dollars in the bank.

It has grown with a practical mother's love, from the initial deposit of one dollar on the first Birthday twenty years ago.

Youth and age alike bear witness to the value of steadily building a Savings Bank Account. Your child as a depositor, will attain a higher standing in the community, family, or, most important, in his own estimation. Open a savings account for the child.
